SUMMARY

AI-first Product and UI/UX Designer with 3+ years of freelance experience building intuitive, high-impact digital products across AI, fintech, SaaS, and consumer sectors. Owns design end-to-end, from user research and wireframes to high-fidelity prototypes and design systems, shipping fast with AI-native tools. Scaled products to 10,000+ users through data-informed, user-centric design.

SKILLS

Design Tools: Figma, FigJam, Spline, Adobe Illustrator, Adobe Photoshop, Adobe XD

UX/UI Practices: User Research, User Flows, Wireframing, Prototyping, Information Architecture, Interaction Design, Usability Testing, Design Systems, Visual Design, Typography, Branding

AI Tools: Claude, Lovable, Antigravity, Google AI Suite, ChatGPT

Soft Skills: Stakeholder Management, Cross-Functional Collaboration, Design QA

EXPERIENCE

Product Design Intern
Brahmaverse AI | 2026

- Designed the onboarding and Home of the Oneverse app, an AI personal assistant built around a 3.2 mm voice recorder.
- Removed the Figma bottleneck that was costing UI quality under tight deadlines, creating screens with Claude Design.
- Improved handoffs by delivering the frontend in the developer's stack, leaving only a few fixes instead of a full build.

Freelance Product & UI/UX Designer
Independent Practice | 2023 - Present

- Delivered end-to-end design across 5+ cross-industry projects (AI, fintech, SaaS, consumer), from research to final UI.
- Built design systems and brand identities for 8+ brands (Genasis, Raremate, DN Associates, Kapoor Sports Complex, Nitisara, JPEGG, Campus Shadow, Smoothie), cutting design inconsistencies by 40%.
- Partnered with founders, developers, and stakeholders across 10 engagements with 100% milestone adherence.
- Delivered brand kits, logos, packaging, and digital assets across multiple organisations.

Raremate - Product Designer & Developer | raremate.in | Jun 2026 - Present

- Designed and developed the live phase-1 landing page for an 11-SKU D2C skincare brand, shipping a WhatsApp buy option to launch without hosting e-commerce; leading the phase-2 storefront build.
- Instrumented the page with Google Analytics and conversion tracking so phase-1 behaviour data directly informs phase-2 design decisions.
- Collaborated with the brand's marketing agency on SEO and conversion strategy ahead of a PR and paid social traffic push.

DN Associates - AI-First Product Designer | May 2026 - Present

- Built an interactive WebGL web experience with live product and business-metric integration, using a Figma and Claude Code workflow.
- Led brand identity, design system, and a responsive website shipped with Claude Code, ensuring visual consistency across touchpoints.

Genasis - Product Designer (UI/UX + Branding) | Nov 2024 - Jun 2025

- Owned end-to-end product design (research, IA, high-fidelity UI, branding), scaling the platform from 200 to 10,000+ users in 30 days (50x growth).
- Redesigned onboarding and workflows, lifting onboarding completion 45%, engagement 30%, and design-to-development efficiency 25%.
- Built a modular design system and reusable components for consistent UI and faster iteration.

LIFE PROJECTS

Google Developer Group (GDG), Bennett University
UI/UX Lead | 2024 - 2025

- Led UI/UX across 15+ events, defining visual standards, style guides, and brand guidelines, improving visual coherence by 25%.
- Designed 20+ event collaterals and marketing creatives, lifting engagement by 20%, with 20 stakeholders and 100% on-time delivery.

EDUCATION

Bennett University, Greater Noida
B.Tech Computer Science (UI/UX Design) | 2022 - 2026

ACHIEVEMENTS

- Led design for GDG's major events including CareerCon and TensorFlow.
- Led design teams across multiple hackathons over 3 years.
- Top 10 in NCR at Smart India Hackathon (SIH).
- Led the design team at LexHack; elected Editor-in-Chief, SFCMUN 2022.
